60FPS HFR Screen Mirroring

Immerse in the most fluid visuals yet.

Intuitive touch controls with zero latency.

DISPLAY

Your Phone, Mirrored

With comprehensive support for Apple CarPlay and Android Auto, your phone's capabilities are unleashed.

Android Auto

Apple CarPlay

Ride Free, Routes at a Glance

Keep your eyes on the journey ahead while glancing at motorcycle routes displayed seamlessly on your AIO-5 Play.

Stay Connected Never Miss a Beat

Never miss an important update or call while out on your bike. With real-time notifications from messaging apps like WhatsApp and LINE, plus the ability to receive incoming calls, you can stay seamlessly connected without compromising your ride. Keep moving while remaining in the loop.

*This feature only supports iOS devices.

Voice Control at Your Command

Effortlessly engage Siri, Google Assistant, or Amazon Alexa through simple voice commands. An intuitive hands-free experience, enhancing your journey.

CONNECT

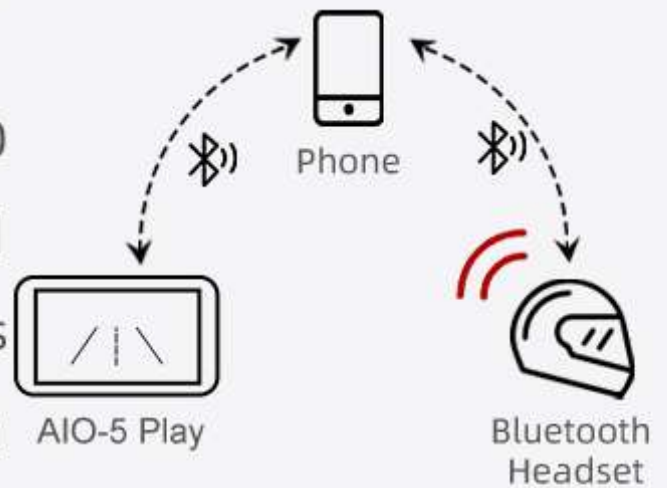

Seamless Auto-Mirroring

Effortless screen mirroring activated with every engine start. AIO-5 Play automatically establishes the connection so you can hit the road without hassle.

Dual Bluetooth 5.0 Connectivity

With support for dual Bluetooth 5.0 connections to your phone and helmet headset, AIO-5 Play enables effortless audio communication while riding.

Dual 2.4G/5G WiFi Flexibility

Seamless switching between frequencies, accommodating a multitude of devices with ease.

CONTROLLER

Wireless Remote Control

(Optional)

Fingertip Control, No Hands Off

Keep your hands on the handlebars with ease. With a gentle touch, seamlessly control music playback, answer calls, switch apps, and more.

BMW Wonder Wheel (Optional)

Experience direct control of AIO-5 Play functions using your BMW's Wonder Wheel, all with the added convenience of remote operation.

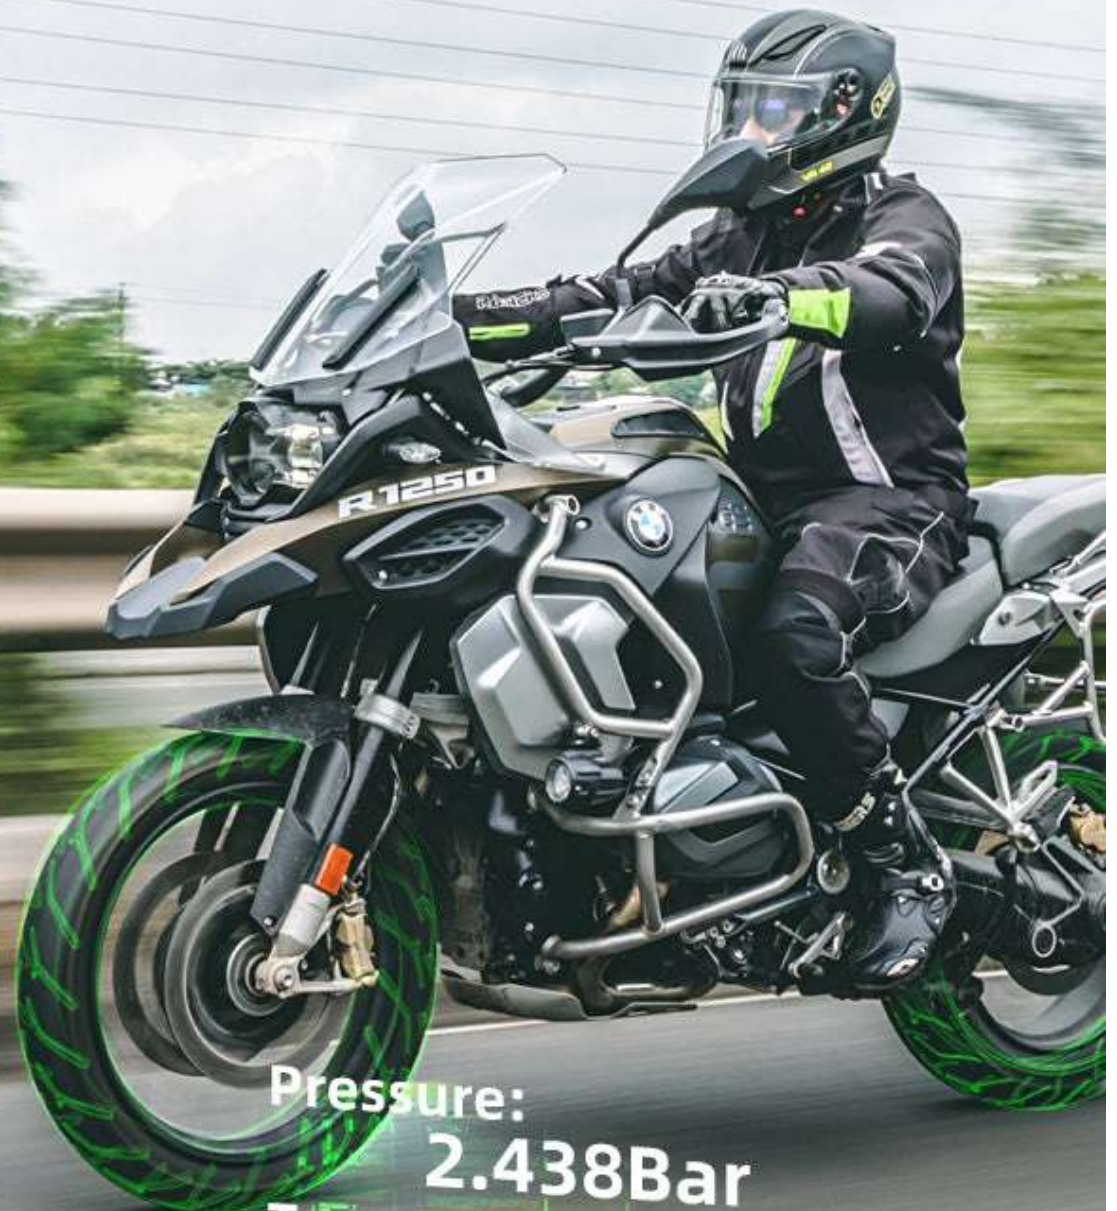

TPMS

Real-time Tire Pressure Monitoring

(Optional)

Always Stay on Top of Tire Pressure Data

Pressure:
2.438Bar
Temperature:
93.2°F

EXPERIENCE

Fully Laminated Screen

Our motorcycle-grade main display features vibrant, refined colors that fill the screen. Clarity remains even in direct sunlight while riding.

Designed for Outdoor Riding

IP68 waterproof design, unafraid of harsh rainy weather. Delivers stable and smooth performance even in high 60°C temperatures or freezing -20°C conditions.

DATA

Riding Data

After each ride, AIO-5 Play will record and display detailed data like ride time, speed, distance, etc., allowing you to better understand your riding performance.

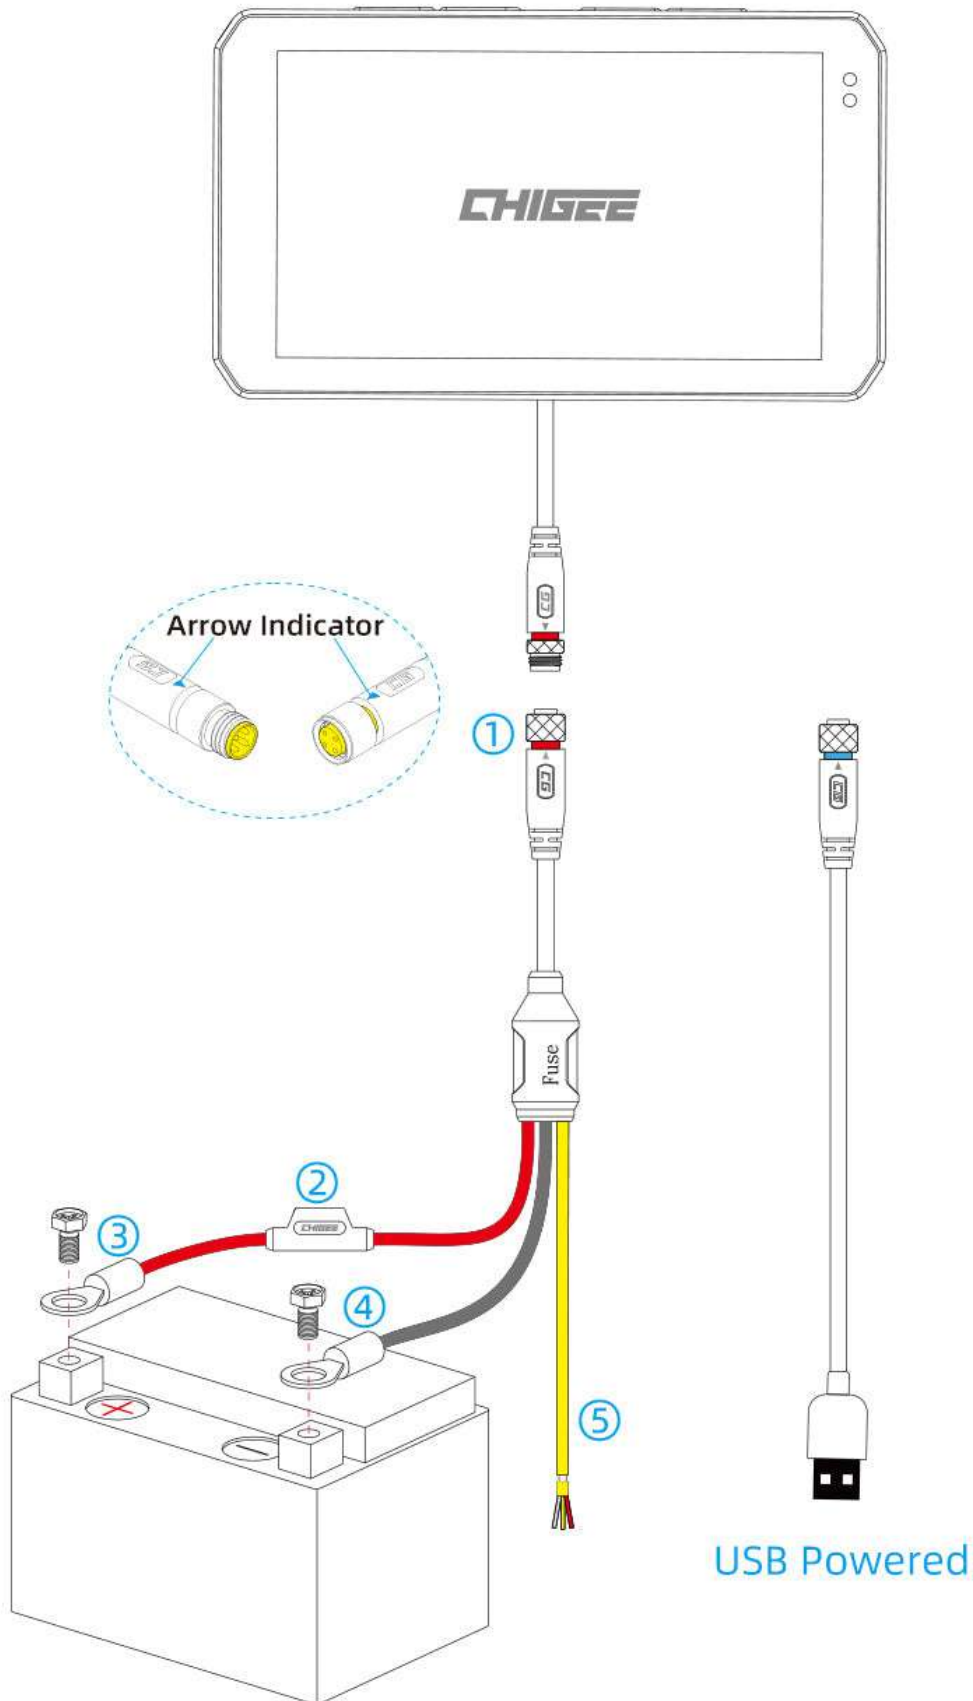

Robust Structural Stability

High-strength diecast aluminum body with floating shock absorption ensures stable operation.

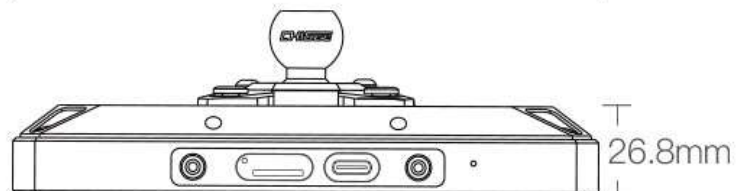

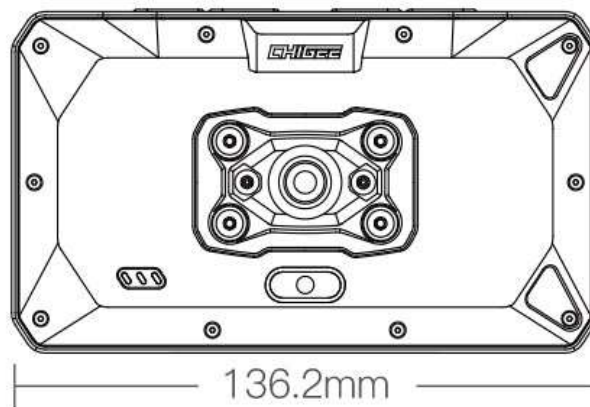

Portable Installation No Wiring Needed
